

Created 2026

Celebrating Life and Hope

On April 16th, Bella Vita Network welcomed over 600 guests to Westgate Chapel for Created 2026, the most guests we've ever had! It was a memorable evening that both celebrated and fundraised for the work of our three ministries: Soul Purpose, The Pregnancy Center, and The Haven.

We welcomed a special guest speaker this year, best-selling author and internationally known minister Lisa Bevere. She delivered a timely and inspiring message about living as a hero of faith and defenders of the vulnerable, by the power of the Holy Spirit, in a culturally challenging time.

We are grateful to announce that we raised a record breaking amount of dollars that will be dedicated to:

- Affirming college women in their identity in Christ
- Life-saving services at the Pregnancy Center
- Breaking down barriers for families to achieve sustainable parenthood
- Biblical reconciliation and healing for those impacted by abortion
- **Aggressive online marketing to reach women who are looking to reverse their abortion pill decision**

If you missed Created this year, we hope you can join us next year for Created 2027!

HEARTS ON THE WALL

We invite you to stand with us in prayer for the women under our care who are abortion-minded or abortion-vulnerable. By signing up for Hearts On The Wall, you'll receive ways to intentionally pray for these women, along with inspiring answered prayer videos, all through text. To sign up, **visit bellavitanetwork.org/pray** or scan

ABORTION PILL REVERSAL

A NEW FRONTIER IN PREGNANCY CENTERS

Baby J
Pregnancy Center Baby

The landscape of abortion has changed. In Ohio, most abortions are now done through the abortion pill with medication abortions increasing 47% from 2024 to 2025, though the abortion rate has only increased 15%. Women can obtain abortion pills through clinics, telehealth providers, or online by mail.

The problem? Women are able to obtain an abortion in complete anonymity, without verifying age or disclosing other details. Abortions can be obtained quickly, without having to leave home or slow down to think longer about this life-altering decision. They're often completing the abortion process in total isolation without medical oversight or follow up. The process is often very painful and, in contrast to a surgical abortion, the abortion pill leaves the mother to see the remains of her child firsthand.

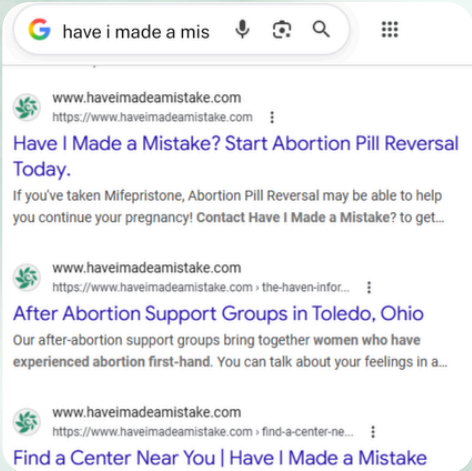

This increase in abortions by medication is sinister and heavy.

At Bella Vita, we've responded to this shift by offering abortion pill reversal (APR). If a woman regrets taking the first abortion pill, we have a nurse practitioner that can administer APR. We'll also provide follow-up care, including an ultrasound.

Hearing the heartbeat of a baby whose life was nearly lost is a holy reminder of God's power and mercy. Every successful APR feels nothing short of miraculous, which is why these babies are written in gold on our "Hearts on the Wall."

We don't want to simply react. We want to be proactive. That's why we've dramatically expanded our online marketing efforts to reach women searching for help after taking the first pill. In addition, we've launched a state wide website: [haveimadeamistake.com](https://www.haveimadeamistake.com). Our APR efforts are only made possible through donor impact, so thank you. We also invite you to please pray with us:

- **For laws surrounding abortion pill access to change**
- **For God to continue using the Pregnancy Center's advertising and APR to save lives**

2025 GRATITUDE REPORT

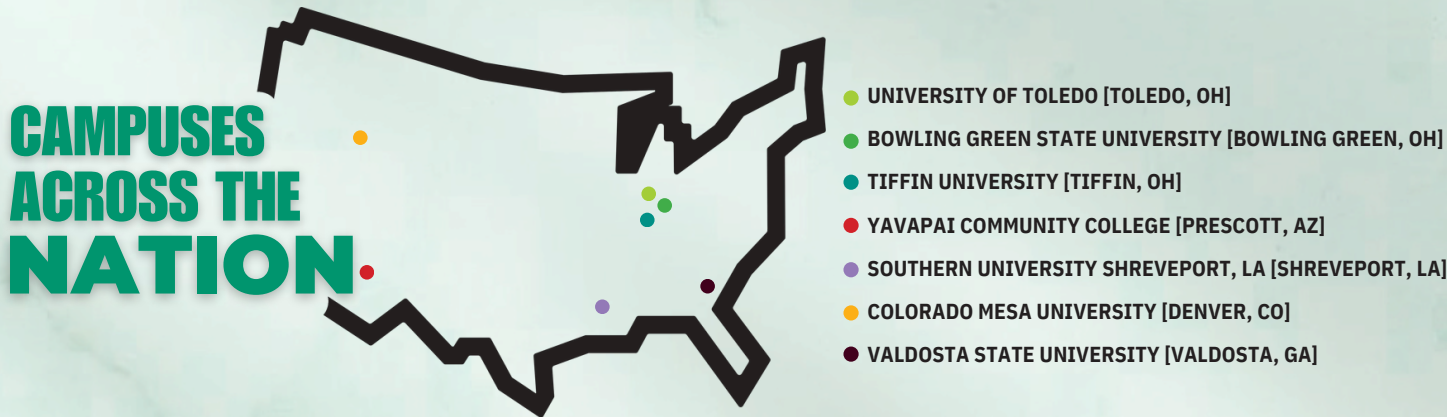

AT A GLANCE

Because of YOUR generosity in 2025, we are able to share some pretty awesome news happening in our ministries! Take a look!

SOUL PURPOSE

COMING SOON TO BELLA VITA!

At the Pregnancy Center, we are focused on strengthening our medical services to better reach today's abortion-seeking women. From strategic advertising to same-day and virtual appointments, we are expanding capacity—including a second ultrasound room and upgraded technology—with the goal of increasing our *choose life* rate to over 80%.

At Bella Vita, our newest initiative, My Village, connects expectant families with local church teams who provide practical support - transportation, babysitting, baby showers, delivery-day childcare, and meals. We're grateful to Declare Church for piloting the program and look forward to adding more church partners soon.
